PHONE (800) 699-9920

(603) 432-3044

FAX (603)-434-4837

Samples submitted to Granite State Analytical Services, LLC will be accepted provided they meet the following criteria:

- Documentation (a Chain of Custody should be used) must be complete including the sample identification, location, date & time of collection, sampler's name, preservation type, sample type, and any special remarks associated with the sample.
- Samples should be presented with durable, water resistant labels, which are completed, including unique sample identification, using indelible ink.
- Sample containers must be appropriate for the analyses requested.
- Samples must conform to specified holding times for the analyses requested.
- Samples must be received at proper thermal preservation. **Those which require such thermal preservation must be packed on ice.**
- Sample volume must be adequate to perform requested analyses.
- Samples must not show any signs of damage, contamination, or inadequate preservation.

Those samples which do not meet all of the above criteria will either be rejected or the results will be flagged in an unambiguous manner - such that the nature and substance of the variation is clearly defined.
